CII Session on Security issues in Cloud Computing and Data Visualization Techniques

*Students from Department of Computer Science and Engineering of Dronacharya College of Engineering, Gurgaon attended a CII session on "**Security issues in Cloud Computing and Data visualization techniques**" on 29th January 2016 at the QEEE Lab. The session was really very helpful as students came to know various concepts of Cloud Computing, controls deployed to protect data, applications, and Data visualization.*

Session on Data Visualization by Saravanakumar, Cognizant Technology Lab
