GLIMPSES OF SEMINARS & CONFERENCES

S. No	Seminars & Conferences	Date
1.	Seminar on Connected Small Business - India's Digital Transformation	24th July 2015
2.	CSI Symposium on Exploring the Potential of Cloud Services	6th August 2015
3.	Telecom Evolution from 1G to 5G	12th August 2015
4.	Counseling for Placements	21st August 2015
5.	Seminar by OFSSAM	27th August 2015
6.	Wings to Fly by EDC-SPEED	4th September 2015
7.	Seminar on How to Crack Coding Interview	10th September 2015
8.	Seminar on "Progress of Making in India the Way forward for scripting India's growth story "	23rd September 2015
9.	Appredemos 2015 15th National seminar on Cyber Security	10th October 2015
10.	National Conference on Advancement in Biometrics and its Applications (NCABTA-2015)	16th October 2015
11.	Seminar on Engineering Education and Research	31st October 2015
12.	Google India Education Symposium	16th December 2015
13.	National Seminar on "Office Automation & Imaging Industry: Transforming India"	16th December 2015

Seminar on Connected Small Business - India's Digital Transformation

A seminar on "Connected Small Business-India's Digital Transformation" was organized by Google Apps for Work on 24th July 2015 at Hyatt Regency, Delhi. Priya Yadav (16955), from Computer Science & Engineering Department of Dronacharya College of Engineering, Gurgaon attended the event. The seminar aimed at to provide in-depth knowledge of cloud-based tools to become part of India's expanding mobile workforce and digital economy. The welcome note was given by Mr. Mohit Pande, Country Manager, Google for Work India. He discussed about Google apps to make Small and Medium Businesses more digitalised.

Counselling For Placements (CFP) Session

To boost up the students for performing well in placement process, Department of Computer Science & Engineering organised a Counselling Session by the team of "Quantum of Excellence" on 21st August 2015 at Dronacharya College of Engineering, Gurgaon. Third and Fourth year students of Computer Science & Engineering and Information Technology departments attended the session. The session was very informative as the students got the overall view to clear the recruitment process and steps that need to be taken care of to get placed in reputed companies.

A Seminar by Ofssam: Bridging the Skills Gap

To motivate, encourage and guide the students for placement processes, Department of Computer Science & Engineering organised a Counselling Session by the team of "Ofssam" on 27st August 2015 at Dronacharya College of Engineering, Gurgaon. Fourth year students of Computer Science & Engineering attended the session. During the seminar, Mr. Sushil Rana, Founder & Creative Head, Ofssam provided an overview of Apache Hadoop, along with its applications to achieve business goals. He also taught the fundamentals and working of Hadoop, Hadoop Ecosystem and its role in the world of big data analytics.

WINGS TO FLY

*To enlighten the students for various carrier scopes, a workshop on "**WINGS TO FLY**" was organized by "Footsteps" on 4th September 2015 at Dronacharya College of Engineering, Gurgaon. Total 53 students of final year from various branches attended the workshop. **Footsteps** a social venture to identify and encourage today's youth to prepare them for the unforeseen future using education as a powerful tool. Footsteps firmly believes on the words of Nelson Mandela that "Education is the most powerful weapon which you can use to change the world". It was a great learning experience for students and made them realize their potentials and sharpen their skills for rational and calculative decision making.*

A Seminar on How to Crack Coding Interview

To guide the students about Technical Interviews, held during placement process, Department of Computer Science & Engineering organised a seminar on "How to Crack Coding Interview" by Mr. Kamal Rawat, Computer Scientist, Bodhn: Meaningful Education on 10th September 2015 at Dronacharya College of Engineering, Gurgaon. Fourth year students of all the departments attended the session with full enthusiasm. The speaker broadly focused on all the key aspects by which students can crack the interview and can get a job. The session was very interactive and students learnt the basic idea to crack any interview.

National Conference on Advancement in Biometrics Trends and its Applications (NCABTA-2015)

Department of Computer Science & Engineering organized a "National conference on Advancement in Biometrics Trends and Its Applications (NCABTA-2015)"on 16th October, 2015 at **Dronacharya College of Engineering, Gurgaon**. The Conference was sponsored by "Science & Engineering Research Board (SERB)" under Seminar Symposia Scheme of Department of Science & Technology (DST), Government of India, New Delhi. The conference aimed to advance and expand the use of biometrics by targeting operationally relevant themes, giving emphasis to design, procurement. The Chief Guest Prof. (Dr.) Nasib Gill discussed about the need of hardcore research in the areas of Image Processing, Biometrics and its Applications, different technologies. Dr. Gill also explained about various applications, which require extensive use of image analysis techniques like: Cancer & Tumor detection based on image processing.

Guests along with Principal Prof. Dr. B. M. K. Prasad, Academic Administrator Prof. Dr. Jitender Kumar, Registrar Dr. S. K. Yadav and Heads of various Departments

National Seminar on "Office Automation & Imaging Industry: Transforming India"

A National Seminar on "Office Automation & Imaging Industry-Transforming India" was organized by Confederation of Indian Industry's (CII) Manufacturing Council at Indian Habitat Center, New Delhi on 16 December 2015. Ms. Sarita, Assistant Professor from Computer Science & Engineering Department of Dronacharya College of Engineering attended the seminar. The Seminar Theme for the Sixth CII OA&I Annual Event was Office Automation & Imaging Industry-Transforming India. It provided a platform to highlight and deliberate on the strategic importance of OA&I products in realizing the vision of smart & secure nation. Mr Ashish Saraswat who is Project Engineer Bureau of Energy efficiency, discussed that digitization amongst the technologies is playing key role in Transforming India, influencing the work styles and lifestyles. As a result large-scale deployment of OA & I products is foreseen in the implementation of the National e-Governance Plan and realizing Government's vision of Digital India and Smart Cities.
