# IBM SoftLayer for Data Recovery and Backup

*A live streaming session "**A Special Session on Data Recovery and Backup**" was conducted by **IBM** on 8th September 2016. Twenty five students of the fifth and seventh semester, from **Computer Science & Engineering Department** attended the online session. Students learnt about improving backup and disaster recovery through powerful data duplication, protecting data with remote mirroring while optimizing network bandwidth to help reduce costs, protecting data in virtual, physical, cloud and software defined environments as well as core applications and remote facilities, proven and cost-effective cloud disaster recovery solutions that get businesses up and running in minutes.*

CSE Students attending the online session

Mr. Jha discussing about recovery and backup taken by softlayer of IBM
