Dronacharya College Of Engineering
August Newsletter, 2008

Happy 62nd Independence Day to all Dronacharyians!!

ISSUE OF COMPUTER SCIENCE & ENGINEERING

From Editor's Desk :

CELEBRATING THE GLOBAL INDIAN

28th June, 2008 LONDON

Boundaries melt and distances are shrunk,
The demarcations of climes and times are sunk,
The service of humanity is glorious and global,
The flags of Nations flutter like the wings of a bird,
To rise to the heights of Heavens, if thoughts are noble!

Dronacharya Times welcomes all; The Principal, Prof. (Dr.) B. M. K. Prasad, Registrar Prof. B. L. Arora, Dean Academics, Prof. Rajeev Sharma, Adviser Research & Training Cell Prof. (Dr.) J. P. Dudeja, T.P.O., all H.O.D.s, all senior and young Faculty Members and all students, both old and new, on the eve of the commencement of the new session 2008-09 which proudly marks the beginning of the second decade with a bang. It really feels great to visualize Dronacharya Group to grow from a sapling into a young tree saturated with dynamism, vitality and virility. Preparation for the commencement of the new session is in full swing and the campus seems to have got a brightened, blooming, rejuvenating and luminous look. The admission rush this year happens to be unprecedented and it makes us feel proud to realize that we have achieved a well defined dream destination.

It is time for celebration, jubilance and rejoicing and more so because our Patron and Mentor Dr. Satish Yadav, the Hon'ble Founder Director of Dronacharya Group of Educational Institutions, has added new laurels to his myriad achievements of an array of enviable International Awards and Honours by bagging a most prestigious Award **'Hind Ratna'** in the field of Education. The Management, the Principal, Dean Academics, Registrar, Research & Training Adviser, all H.O.D.s, the Librarian, T.P.O., all Faculty Members, staff members old and new students stand in ovation to honour our dearest Sir who has made the entire Dronacharya family proud by the most coveted International Award conferred on him at an unforgettable Award Ceremony **CELEBRATING THE GLOBAL INDIAN** organized by Secretary General Shri Gurvinder Singh, Chief Editor Indian Observer under the aegis of NRI Welfare Society of India presided by Dr. Bhishma Narayan Singh (Former Governor) held in London (UK) on **28th June, 2008**.
Mr. Virendra Sharma (MP), Mr. Keith Vaz (MP), H. H. Judge Mota Singh, Lord Karan Billimoria, Lord Sheikh, Lord King and Mr. Madhava Chandra (Minister High Commission of India) were the Guests of Honour.

Congrats!! May your dreams take new wings and your wonderful vision rise to greater horizons!

Editor, (Dr. R. C. Narula)

From HOD's Desk :

August characterizes the beginning of a new session and we are all set to reach new heights. To begin with the Department of **CSE and IT had organized a National Seminar on Current Trends in Information Technology on 16th July 2008**. The purpose of the Seminar was to examine in detail, current developments in the field of Information Technology, to strengthen the Faculty's knowledge, to provide a forum for the discussion of important problems and their possible solutions. We got an overwhelming response from the Faculties of this College as well as from outside. The Seminar attracted participation from faculties and researchers of this College and many other reputed Institutes. The National Seminar played an important role in our Faculty Development Program.

Papers on varied topics like Information security, creation of bug reports, Genetic access network, I-Mining techniques, Intelligent network and many more were presented in the Seminar which definitely further enriched the knowledge of our Faculties. The Department is proud of the projects undertaken by the students last year. **Our student Abhishek got first prize in the project exhibition organized by Faridabad Industrial Association**. This time we will take a further leap. With the help of Dr. J. P. Dudeja Adviser R&T we are planning to build Industry - oriented projects. We have scheduled project labs on Friday which can be utilized by students through out the day. The Department of CSE and IT is energized with new ideas and ventures and is prepared to face the new challenges.

Head of the Department, (Mr. Jitender Kumar)

Faculty's Viewpoint :

In the era of liberalization, privatization and globalization (LPG), the world has become a hamlet. As nations integrate, the fast interaction of technology and individuals has made the environment dynamic and complex. There may be a scarcity of competent human resource to meet the challenges of emerging global scenario. However, India is different as it is endowed with a large young age band.

As the DNA of any computer is its hard drive, the DNA of this emerging nation is its youth with their resonant minds. In today's cyber world, paradigm shift takes place and the development spirals from generation to generation. Apparently, we have purged the tangled wired PC world and moved on to the fourth generation; 4G wireless cellular world with Apple's 3G I-phones prevailing in the market.

Technology is a catalyst that breathes and grows. Inevitably it has to embrace change to survive. The theoretical potential of science offers this change in the breadth of technologies and products. A sufficient love of technology, entrepreneurship and just the right skills of science are hard to come by! Those who display mastery, maturity and the will to wade through failures soar high. When the theoretical potential connects with practical actualization, the great magical union is created, known as technology.

Explore, innovate and create magic to stay online...

Dr. Supriya Panda

Student's Viewpoint About The Department :

"The impossible is often the untried"

The train to success usually runs on the path of determination. And it is one of the various things that have been taught to me in this Institution. I am extremely proud to be a part of such a prestigious College. The teachers are very helpful. They have not only guided me but have also inculcated in me a desire to be a better and successful person, shown me a direction in which to proceed to fulfill my desire, taught me to be hardworking and dedicated.

Under the supervision and guidance of experienced and trained faculty members of our College, **I have been able to grab a placement offer at 'Infosys', one of the leading companies in the Corporate World**. Hence I want to grab the opportunity to thank our H.O.D**.** Mr. Jitender Kumar and all my teachers for their support.

Dronacharya College of Engineering is not just a placid technical Institute but it is a place where the students get over all grooming to become successful future citizens and face the challenges of the world. It inculcates an earnest **"Give your best shot"** feel in the students. The campus is situated in the midst of lush green fields that give it a maverick view far away from the noisy polluted city. The success story of our campus is known to all because of its ever growing fame and its explicit growth. Fully furnished technical labs, best Faculty, University toppers, MNC's for placements, Co-curricular activities so on and so forth. You name it and you have it. H.O.D's and faculty members share an abiding bond with the students and leave no stone unturned to help students perform better. Even the scholarships are awarded to boost the morale of students. The Discipline of the place Rocks. I consider myself lucky to be a part of the Dronacharya family: our unfeigned paragonic Gurukul.

"Tere dum se hain hum aur humare dum se ye jahan..." Luv you...
Aditi Thakran
(Roll No. 8273)

Dronacharya College of Engineering, started around 10 years ago, is now among the topmost college in Haryana. The college has accepted education as a highway to achieve its long cherished goals and tantalizing targets. **'The real academic strength of an Institute lies in providing a substantive, solidified, dedicated and scholastic faculty'**. The Dronacharya College, functioning defiantly, determinedly and dynamically, has a team of vibrant, visionary, hardworking and highly experienced faculty that makes its backbone.

Like they say **"You don't get paid for the hour. You get paid for the value you bring to the hour"**.

The college strives hard to inculcate knowledge as well as values in a student. The well nurtured, cultured and moral values of this Institution make the students hardworking and disciplined. **"Discipline is the bridge between goals and accomplishments"**. The Faculty members just don't try to make out graduates out of us but they transform us into good IT professionals and good human beings.

In the end, **I express my gratitude to the faculty, H.O.D. Sir and the entire Placement Cell unit of the CSE Department for being always with me to enable me achieve my dream of getting into India's No. 1 IT Company "Infosys"**.

"Knowledge is a process of piling up facts... Wisdom lies in their simplification..."

History is attached with our College which dates back to the times of Mahabharata... where Dronacharya was the royal guru to the Kauravas and the Pandavas. In the modern time we have our College which acts as a mentor to thousands of Engineers from our College so that we have the perfect minds to win any challenge of the modern world... The aim of our College is to develop highly skilled human resources with the ability to adapt to an intellectually and technologically changing environment with the participative efforts of the Management, staff, students and parents for the same.

Our Department, *"CSE & IT"* caters to the needs of the new millennium providing quality education with best in class infrastructure making us stand out of the crowd. This is possible because of our H.O.D., Mr. Jitender Kumar and our Faculty. They act as individual mentors to each student focusing on key concepts and foundations.

The dream of every Engineer to work with the top most MNC has become true. With our placement cell we have companies at our doorsteps. ***The College placement cell works in collaboration with various leading MNCs to cater to the needs of the growing IT industry. The team concerning placement services is headed by Prof. Onkar Singh, the reasoned and seasoned Placement Officer who lends full assistance to the students in their search for suitable placement***. I sincerely thank him for his continuous support and encouragement because of which ***I am placed in one of the biggest and reputed firms like "L&T InfoTech" in my third year itself***.

Our main focus is to build professional Engineers and the atmosphere supports the same. The College ensures an environment where students, faculty and staff are encouraged to enhance their intellectual curiosity and improve their technical and professional skills through continuous development. The College creates an energized student-centered environment that makes career education accessible to all. It provides the students the perfect work culture to ensure easier transition to a professional Engineer. It gives opportunity to students of today to become leaders of tomorrow.

We believe that if the base is strong you can achieve the peak. Each student of Dronacharya is well prepared to take on the world with a dynamic mind and well versed with the latest technologies. At Dronacharya it feels you are still at home... for all of us it's Study with Fun... Dronacharya Rocks!!!

Neha Davar
(Roll No. 8303)

I take pride on being associated with the Department of Computer Science & Engineering of Dronacharya College of Engineering. During this course I found the faculty members disciplined, hardworking and sincere not only in academics but shaping the overall personality of students.

The Department has sate-of-the-art lab facilities. Under the supervision of our H.O.D., Mr. Jitneder Kumar and our faculty members ***I was able to get placed in Infosys and sincerely thank them for shaping up my career***.
