

Autodesk is inviting undergraduate and postgraduate students from across India to participate in the 3D Student Design Challenge. Rolling on to the sixth season this year, **3D Student Design Challenge 2016** invites students from Civil Engineering, Architecture, Construction Management related disciplines to showcase digital design skills on a challenging platform.

Who can participate: The competition is open to fulltime students enrolled in 3 or 4 year degree programs. You can participate as an individual or a team of **maximum 2 members**.

Take on the challenge to create innovative and sustainable **BIM/3D designs**, put on your creative caps and submit 3D / BIM design projects for judging by a panel of industry experts. To make sure the scoring is not compromised, be sure to follow the rules and use only Autodesk portfolio of products to create your design projects.
