Objectives of the Virtual Lab Project

- To provide **remote-access to labs** in various disciplines of Science and Engineering.

- To cater to **students** at the UG level, PG level as well as to research scholars.

- To enable the students to learn at their **own pace**, and to arouse their **curiosity**.

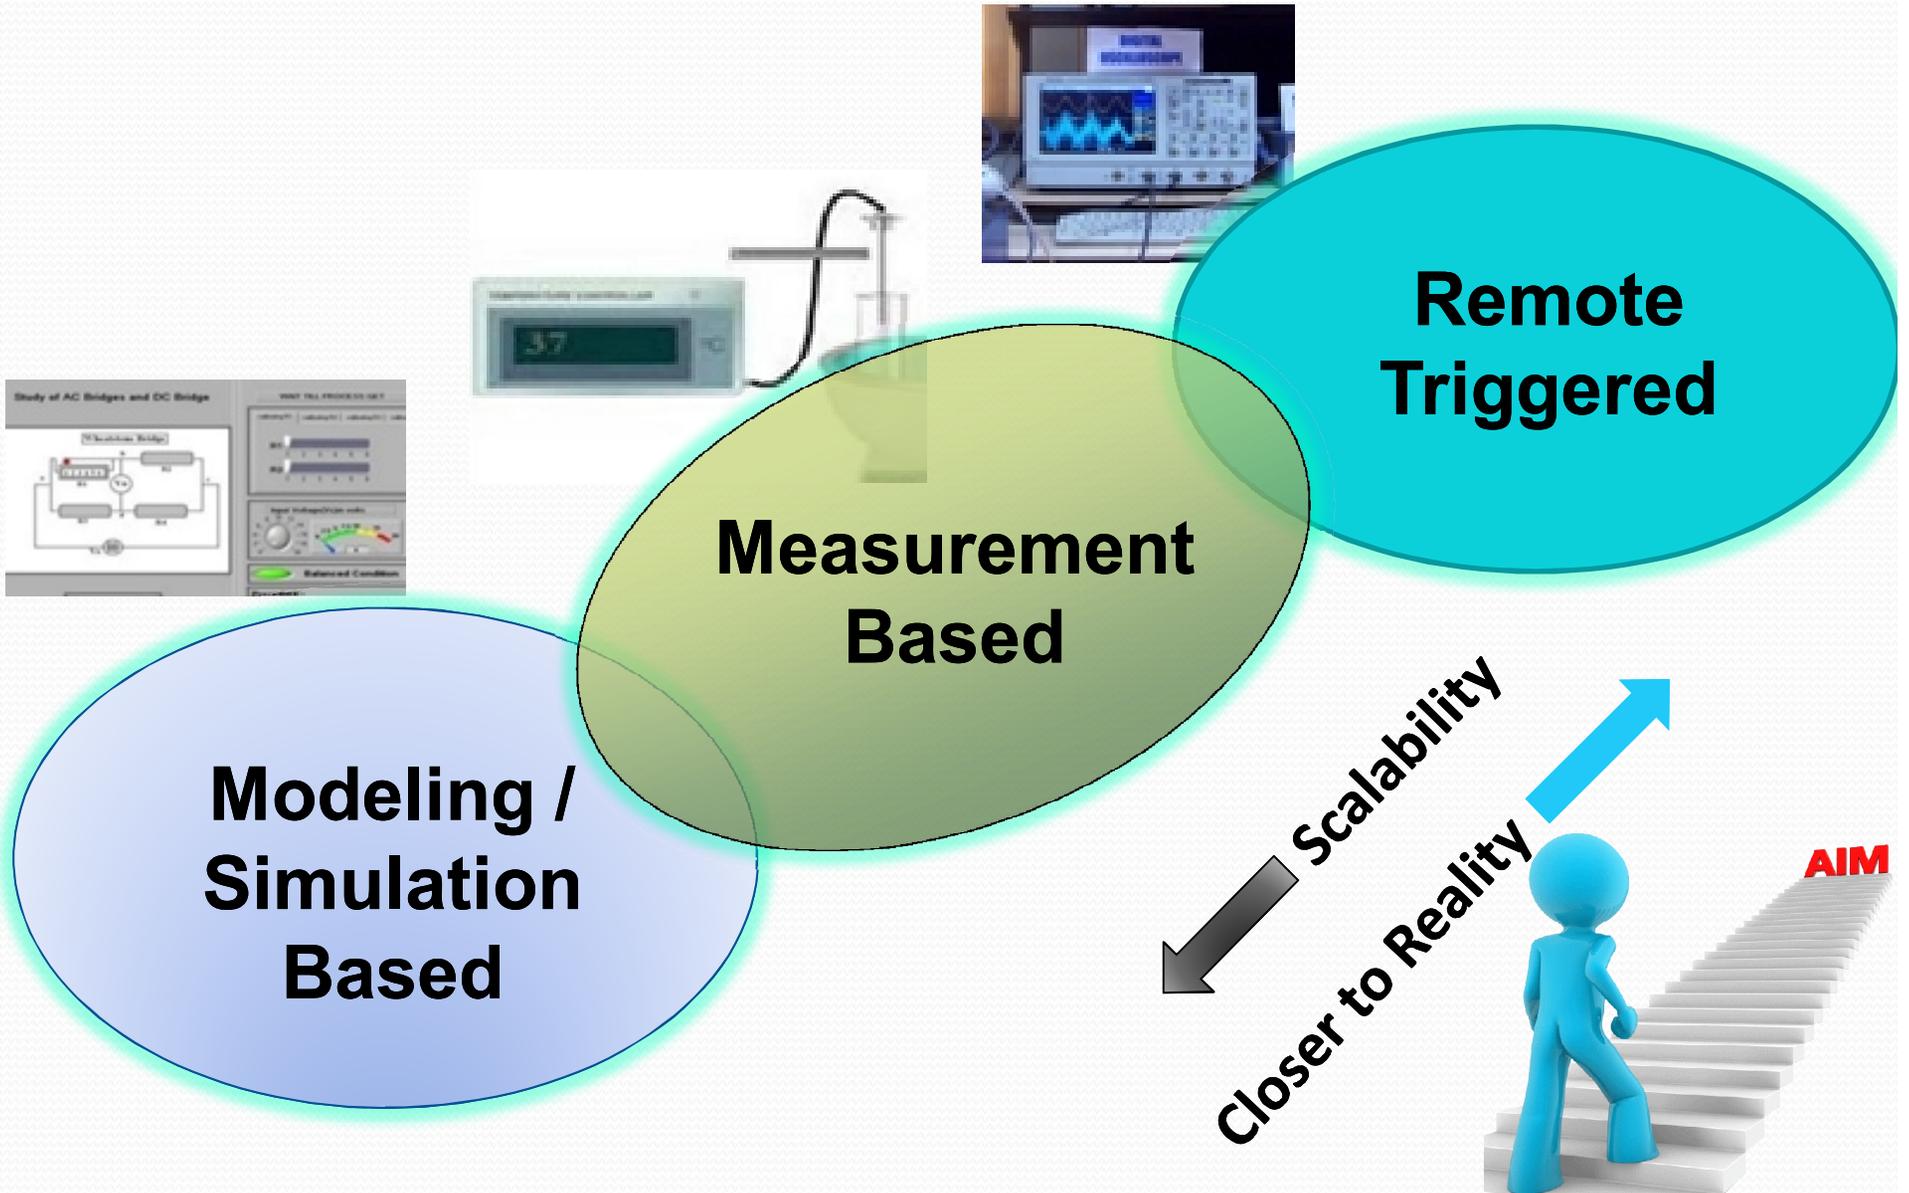

- To provide a complete **Learning Management System** that includes web-resources, video-lectures, animated demonstrations and self evaluation.

Physical Labs Vs Virtual Labs

Factors	Physical Labs	Virtual Labs
Cost	Typically in few Lakh Rupees	Almost Nil (only your existing PC with internet connection is needed)
Availability	Limited in time and space	Designed for 24x7 usage
Experimentations	Limited options for innovation	Provides wider & safer options for innovative experimentations e.g. High Voltage lab, Mechanical design lab, biomedical , civil Engg structures labs.
User Experience	Best	Second Best

Types of Virtual Labs

Intended Users

- ✓ **College students** who do not have access to good lab-facilities.
- ✓ **High-school students** whose inquisitiveness will be triggered, possibly motivating them to take up higher-studies.
- ✓ **Different engineering colleges** who can benefit from the content and related teaching resources.
- ✓ **Researchers in different institutes** who can share/ collaborate equipment and resources.

Objectives of the Virtual Labs:

- To provide remote-access to Labs in various disciplines of Science and Engineering. These Virtual Labs would cater to students at the undergraduate level, post graduate level as well as to research scholars.
- To enthuse students to conduct experiments by arousing their curiosity. This would help them in learning basic and advanced concepts through remote experimentation.
- To provide a complete Learning Management System around the Virtual Labs where the students can avail the various tools for learning, including additional web-resources, video-lectures, animated demonstrations and self evaluation.
- To share costly equipment and resources, which are otherwise available to limited number of users due to constraints on time and geographical distances.
