

## IEEE DLP Lecture at IIT Delhi

On 2<sup>nd</sup> August 2016, Nikhil Kaushik (17769) student of V Semester *Electronics and Computer Engineering Department* attended a lecture "**Applications of metaheuristic techniques for improving the performance of Neural Networks**" organized under IEEE CIS Delhi Chapter at IIT Delhi. The key speaker of the lecture was **Sebastián Basterrech**, *Professor, Department of Computer Science at VSB-Technical University of Ostrava, Ostrava, Czech Republic and also a visiting Professor in Department of Computer Science, University of the Republic, Montevideo, Uruguay*. The lecture dealt with the Neural Networks (NNs) that are one the most useful and popular computational model on the area of Machine Learning (ML) and Artificial Intelligence.
