

Panel Discussion on Research in Engineering & Technology and Technical Education

On 18th November 2016 a Panel Discussion was organized by National Institute of Technical Teachers' Training and Research, Chandigarh (NITTTR) on the theme 'Research in Engineering & Technology and Technical Education'. Ms. Parul Bansal (Assistant Professor along with six students of Electronics and Computer Engineering Department from Dronacharya College of Engineering, Gurgaon) was one of the eminent delegates for the same. The discussion was graced by the presence of distinguished panelists: Dr. Sandeep Sancheti (*President, Manipal University, Jaipur*) and Dr. D.S. Khatri (*Director, Vembsys Technovation Ltd., Gurgaon*). During the presentation, Ms. Parul discussed the importance of networking in order to promote research and development and also shared the research scenario at Dronacharya College of Engineering, Gurgaon which revolves around the R&D Cell and the activities undertaken by the cell to come up with innovative projects, patents and research work.
