

## *Seminar on "Green Power in India"*

On 28th August 2015 The *Department of Electronics & Computer Engineering* organized a one-day Seminar on "Green Power in India". The seminar was jointly conducted by **ISTE student Chapter DCE** and **Eco-Club** of the college. The seminar was designed to increase attendees' knowledge and awareness of the present day expectations in regard to various concepts of green power. The objective of the seminar was to create consciousness about environment and to discuss some significant measures to be adapted for making our India cleaner and Greener
