# ADVANCE WORKSHOP ON "INTELLIGENT & SECURE WIRELESS SENSOR NETWORKS"

A two day workshop on **"Intelligent and secure wireless sensor networks**" was organized during **International Conference on Communication & Computing Systems on 9th-10th September 2016**. **Prof. (Dr.) B.M.K. Prasad** was the Patron of the workshop. The workshop was coordinated by Dr. Manoj Sharma, Associate Professor, ECE Department. The objective of the workshop is to provide a platform for hand on practise and to familiarize with intelligent & secured network in wireless communication and to bring together researchers and practitioners from wireless and sensor networking, security, cryptography, and distributed computing communities, with the goals of promoting discussions on various research areas in secure and intelligent wireless sensor network.

Expert Session by Dr. Varun Gupta
