

## WINTER SCHOOL ON VLSI DESIGN FROM 18-22 JAN 16

**Ms. Seema (Assistant Prof., ECE)**, along with **Ms. Priya Yadav (Assistant Prof., ECE)** from Dronacharya College of Engineering conducted a one week Winter School on “**VLSI Design**” from 18-22 Jan 16 in the college campus. 19 students have actively participated in the School. The objective of the Winter School was to groom and empower students to make them self-sufficient in the field of VLSI Design by giving them real time hands-on experience on Microwind tool and XILINX tool. Another objective was to raise the technical skills of budding engineers and bridge the gap between industry and academia. The School was best suited to beginners who were taking their first step towards VLSI Design.
