Instruction for students writing the PST:

Step 1: Read the problem carefully

Step 2: Take time to understand the requirement – Re read the problem – Think of the logic and then arrive at the solution.

We are judging you on your problem comprehension and analytical skills as well as your technical aptitude.

The Approach that you need to take is:

Write the entire body of the program OR Draw a flowchart and with the corresponding functions write snippets of code.

Please note it is essential to write code.

Points to keep in mind:

- a) Explain program flow wherever required
- b) Avoid using algorithms or pseudo codes
- c) Use any programming language that you are comfortable with (C, C++, and Java)

d) Use both sides of the paper. (Any page can be used for rough work which is already attached). No extra sheet will be given.

e) Use pen\pencil\sketch pens – whatever you feel appropriate.

Note:

Students are informed to carry all the mandatory documents like soft / hard copy of resume, passport size photographs, Originals & Photocopies of all semester DMC's and proof of identity
