

## WORKSHOP ON “THE ARDUINO”

*Riya Jain (16548) student of VI semester, and Saurabh Kumar (15517) student of VIII semester, Information Technology attended The Arduino Workshop on 27th March 2016 at Msotik Tech Park, Dwarka. The Arduino is a cheap, flexible, open source microcontroller platform designed to make it easy for hobbyists to use electronics in homemade projects. In Arduino Workshop, you'll learn how these add-ons work and how to integrate them into your own projects.*
