

IEEE DL Program on Adaptive Dynamic Programming

To provide detail information on the Adaptive Dynamic Programming to the IEEE Student Members, a DL Program was organized by IEEE Delhi Section on 17th November 2016 at IIT Delhi. Seven students, Sanatan Jha (17127), Saurabh Kumar (17129), Prakriti Chawla (18117), Kanika Saluja (18077), Ritik Kaul (18123), Nitin Manocha (18110) and Lavanya Rohilla (18087) of Computer Science & Engineering Department attended the program. It was a great experience for students as Prof. Derong Liu explained in detail about each and every aspect related to adaptive dynamic programming.
